

# Township of Tiny: Local Aging Plan Update

## Creating an Age-Friendly Future Together

The Township of Tiny has been designated an Age-Friendly Community by the World Health Organization (WHO). As part of its ongoing commitment to improving quality of life for older adults, Tiny is updating its 2017 Local Aging Plan to reflect today's realities and guide a more age-friendly future.

### What Is An Age-Friendly Community?

Age-friendly communities support older people to age with dignity, respect and independence, and promote the inclusion of older adults in all areas of community life. The World Health Organization identified **eight key areas of community life** in which communities can become more age-friendly:

#### **Outdoor Spaces & Buildings**

Safe and accessible parks, and public spaces

#### **Transportation**

Explore options for transportation and advocating to the appropriate levels of Government

#### **Housing**

Investigate avenues and explore opportunities and education

#### **Social Participation**

Opportunities to connect, engage, and reduce isolation

#### **Respect & Social Inclusion**

A community that values and includes older adults

#### **Civic Participation & Employment**

Meaningful roles for older adults to volunteer, work, and contribute

#### **Communication & Information**

Clear, accessible ways to stay informed

#### **Community Support & Health Services**

Educate residents on local services and information dissemination

### Why This Matters

Updating the Local Aging Plan is about making Tiny a place where people of all ages can thrive. Your insights — as residents, caregivers, organizations, and businesses — will shape the strategies that strengthen Tiny's social, physical, and service environments.

### Get Involved

We want to hear from you! Visit the project webpage to:

- Learn more about the plan
- Complete the community survey
