

For immediate release

The Township of Tiny has declared a Significant Weather Event on January 2, 2026

Date: January 2, 2026

(Tiny, Ontario) The Township of Tiny has declared a Significant Weather Event on January 2, 2026, based on Environment Canada's forecast for significant snowfall. Snow will continue to fall and it is anticipated that winds will increase this evening which may result in blowing snow. The rapidly accumulating snow will make travel difficult and isolated power outages are possible.

The Township of Tiny is advising drivers and residents to be cautious and drive to the conditions of the road. Residents can help out by ensuring they:

- do not park on any roadways/sidewalks to allow snow clearing vehicles to do their work;
- clear catch basins adjacent to their property (where safe to do so); and
- keep roadways clear (place garbage/bins on your driveway apron) during scheduled waste collection.

For more information about winter maintenance in Tiny, visit www.tiny.ca/snow.

Significant Weather Event

Municipalities may declare a Significant Weather Event when a weather hazard, either forecasted or occurring, has the potential to pose a significant danger to users of the roadways and sidewalks within the municipality. Weather hazards include freezing rain, significant snowfall, strong winds, blowing snow, and reduced visibility.

This declaration is permitted under the Minimum Maintenance Standards for Municipal Highways under [Ontario Regulation 239/02](#).

Notice will be provided when the Declaration of Significant Weather Event has been removed based on the township's ability to achieve the requirements under MMS.
