Standard conditions of consent (lot creation) approval:

The Committee of Adjustment may impose a number of conditions of approval. These conditions will be listed in the Committee's decision and provided in writing. Conditions are to be implemented at the owner's expense and, as per the *Planning Act*, you will have two years to fulfill said conditions, otherwise, the application shall be deemed to be refused. Below is a list of standard conditions:

- If there is an associated Minor Variance Application, that it be approved (with no appeal).
- A Reference Plan prepared by an Ontario Land Surveyor identifying the severed and retained parcels.
- If required, a subsequent application for rezoning (subject to Council approval). Please consult with a Township Planner for further information. Please refer to the Township Fee By-law to determine the applicable application fee.
- Confirmation from the Public Works Department that the property access/driveway for the severed and retained lands are satisfactory. An access permit application(s) may be required. Please refer to the Township Fee By-law to determine the applicable application fee.
- 5% cash-in-lieu of parkland dedication in accordance with the Planning Act. An appraisal of the property (the entire parcel of land before the date of consent) will be required. At the request of the owner, the Township will retain a certified appraiser, however, the costs of both the appraisal and 5% cash-in-lieu are borne by the owner.
- Confirmation from the Township's sewage disposal approval authority, Tatham Engineering, that the severed (and retained, if applicable) lands can be adequately serviced by an on-site subsurface sewage disposal system. A sewage system permit application(s) may be required. Please refer to the Township Fee By-law to determine the applicable application fee.
- Confirmation from a qualified hydrogeologist that the severed lands can be serviced with an appropriate water supply subject to the Townships Protocol for Evaluation of Potable Groundwater Supplies.
- Draft electronic transfer(s) prepared and submitted by a lawyer prior to issuance of a Certificate(s).

In addition to the above standard conditions, some applications may also require satisfactory completion of:

- Minimum Distance Separation (MDS) formulae calculation
- Environmental Impact Study (EIS)
- Mineral Aggregate potential assessment
- Archeological Assessment

A Pre-consultation Application would identify and provide details on submission requirements including reports/studies.
